

# China-Japan Friendship Neurosurgical Forum

Time: April 9<sup>th</sup> 1:30~6:15 PM

Venue: Ruijin Hospital Lecture Hall

1:30~1:40 Opening ceremony

Welcome address: Weiguo ZHAO, chairman, Dept of Neurosurgery  
Zhenggang ZHU President, Ruijin hospital

1:41~1:45 Picture time

## Scientific session I Tumors

Moderator: Zhou Liangfu Shen Jiankang

1:46-2:15 Takeshi Kawase Anterior transpetrosal approach for petroclival tumors invading middle cranial fossa

2:16~2:40 Liangfu Zhou Microsurgery for dumb-bell shaped trigeminal schwannoma

2:41~2:55 Hidetoshi Kasuya Development of nicardipine prolonged-release implants for preventing cerebral vasospasm

2:56~3:10 Weiguo Zhao: Supraorbital Keyhole approach for anterior cranial base meningiomas

3:11~3:25 Takeya Watabe Application of endoscopic neurosurgery

3:26~3:40 Bian Liuguan Trans-sphenoidal treatment of Cushing's disease

3:41~3:50 Coffee break

## Scientific session II CVD

Moderator: Lu Yicheng Liu weidong

3:51~4:10 Kentaro Mori Keyhole clipping

4:11~4:30 Mao Ying: Cerebral Revascularization in the treatment of CVD

4:31~4:45 Takanori Esaki Transcranial MEP monitoring during cerebrovascular surgery

4:46~5:00 Wang Yong Experience of surgical treatment of supraclinoid internal carotid artery aneurysms with difficulty to manage

5:01~5:15 Satoshi Iwabuchi Retinal circulation before and after carotid artery stenting

5:16~5:25 Mami Akiyama A case of cerebral infarction mimicking glioma

5:26~5:35 Chihiro Akiba Micro-anastomosis using rat's femoral artery for training of cerebrovascular surgery

5:36~5:45 Ken-ichiro Sato A case of dAVF of the transverse-sigmoid sinus showing feeder development in the short term

5:46~5:55Cai Yu Neuroprotective effect of TSC in 3VO rat model of brain ischemia

5:56~6:15 discussion

6:30~8pm welcome banquet

8:30~10pm boat tour on Huangpu river
